

EdgeOne

Connectivity at the RuggedEdge

EdgeOne is the titan of industrial-grade edge computing hubs, specifically engineered to empower your enterprise in the most challenging environments. With its Class 1 Division 1, ATEX Zone 1 intrinsically safe certification, it's designed to operate safely in hazardous areas where explosions or fires are a risk. EdgeOne features 5G and Wi-Fi 6 connectivity, ensuring high-speed data transfer and unwavering communication in critical operations. Its rugged build is matched with an advanced processing capability, making it the ideal choice for industries that require the utmost in performance and safety. Seamless compatibility with the EdgeConnect software platform ensures that EdgeOne is not just a device but a pivotal component of your integrated industrial ecosystem.
