

Inmarsat IsatPhone 2

A powerful, dependable satellite phone delivering connectivity, high voice quality, voicemail, text and email messaging, extended battery capacity, incoming alerts, and tracking and assistance alert features. All packaged in an ergonomically designed rugged handset.

Ready, Reliable, Robust

The IsatPhone 2 from Inmarsat, designed for the most reliable satellite communications network in the world.

IsatPhone 2 is a tough phone for a tough world. The robust handset has been engineered to cope with anything that nature can throw at it - from searing heat to icy blast; desert sandstorms or monsoon rain. With fast network registration, an unrivaled battery life offering 8 hours of talk time and up to 160 hours of standby time, you know you can always depend on the IsatPhone 2.

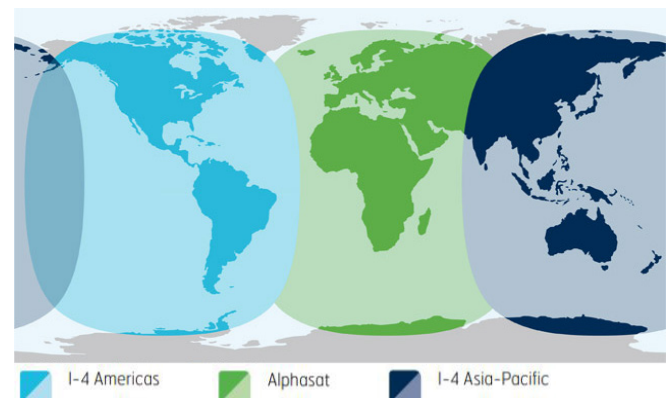

What's more, IsatPhone 2 gives you the excellent voice clarity and call stability you have come to expect from Inmarsat's network.

- Ready: fast network registration in under 45 seconds
- Reliable: operates over global geostationary satellites ensuring reliable call stability and network connection
- Robust: designed and engineered to withstand the most extreme conditions; operates at -20°C to 55°C (larger keypad for easy dialing when wearing gloves); dust, splash, and shock resistant (IP65, IK04); humidity tolerance from 0 to 95%
- Reassuring: location services, including tracking and assistance button, keep people updated of your GPS coordinates when it matters. Receive notification of inbound calls even with antenna stowed
- Readable: easy-to-use interface with large high-visibility, scratch-resistant display that is readable even in bright sunlight

Package Includes

- Handset
- Battery and 2 chargers (mains and car)
- Micro USB cable
- Wired hands-free headset
- Wrist strap
- Quick start guide (8 languages)
